

Felt Bee Bookmark

What you'll need:

- Pencil
- Scissors
- Hot Glue Gun/Fabric Glue

What's included:

- Felt Pieces
- Cutout Template

Instructions:

1. Cut the shapes out from the template and trace onto the different felt pieces using a pencil. Make sure to make two of the body, wing, and antennae.

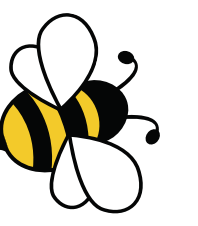

2. Cut the shapes out.
3. Draw a simple face on one of the bee body shapes using a black marker. Use a pink marker to add two spots for cheeks.

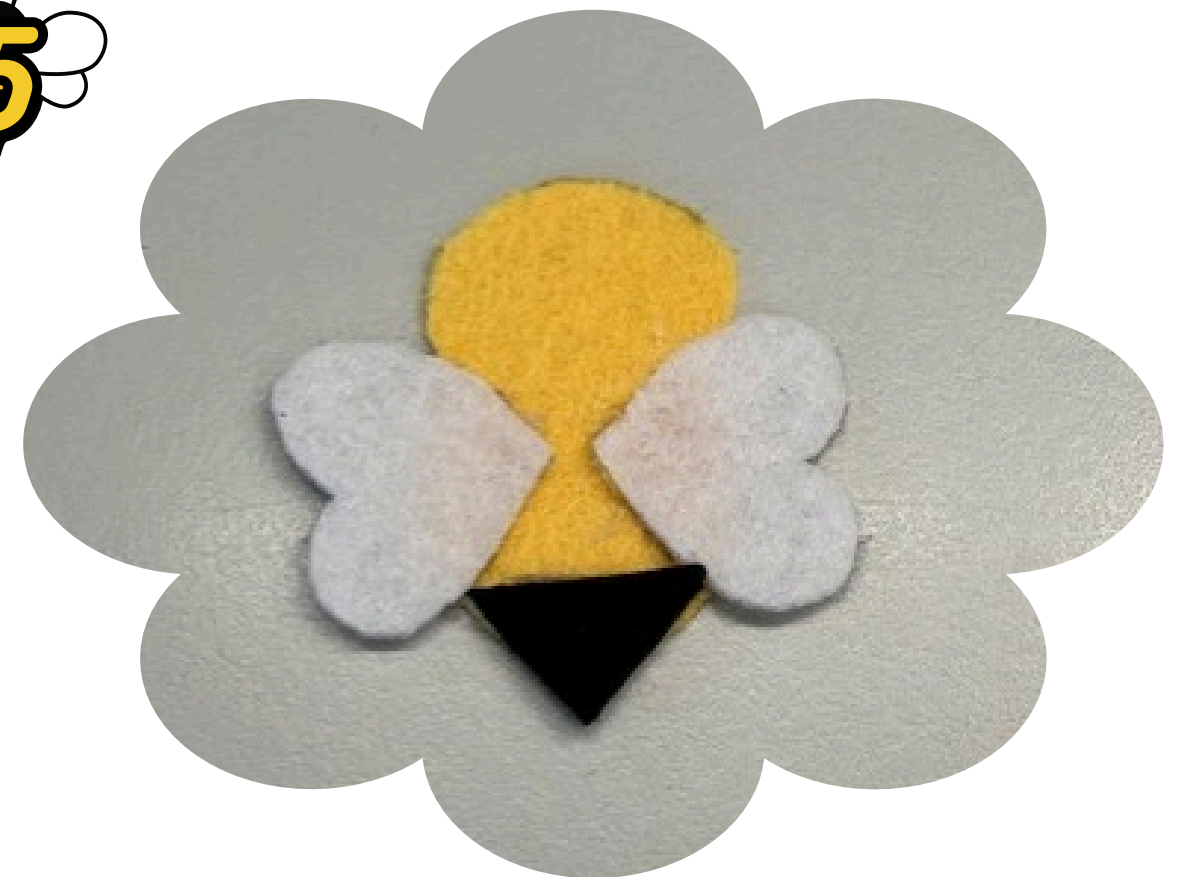

4. Glue the black stripes across the bee's front piece and antennae on the back. Trim any excess black felt from the sides.

Felt Bee Bookmark

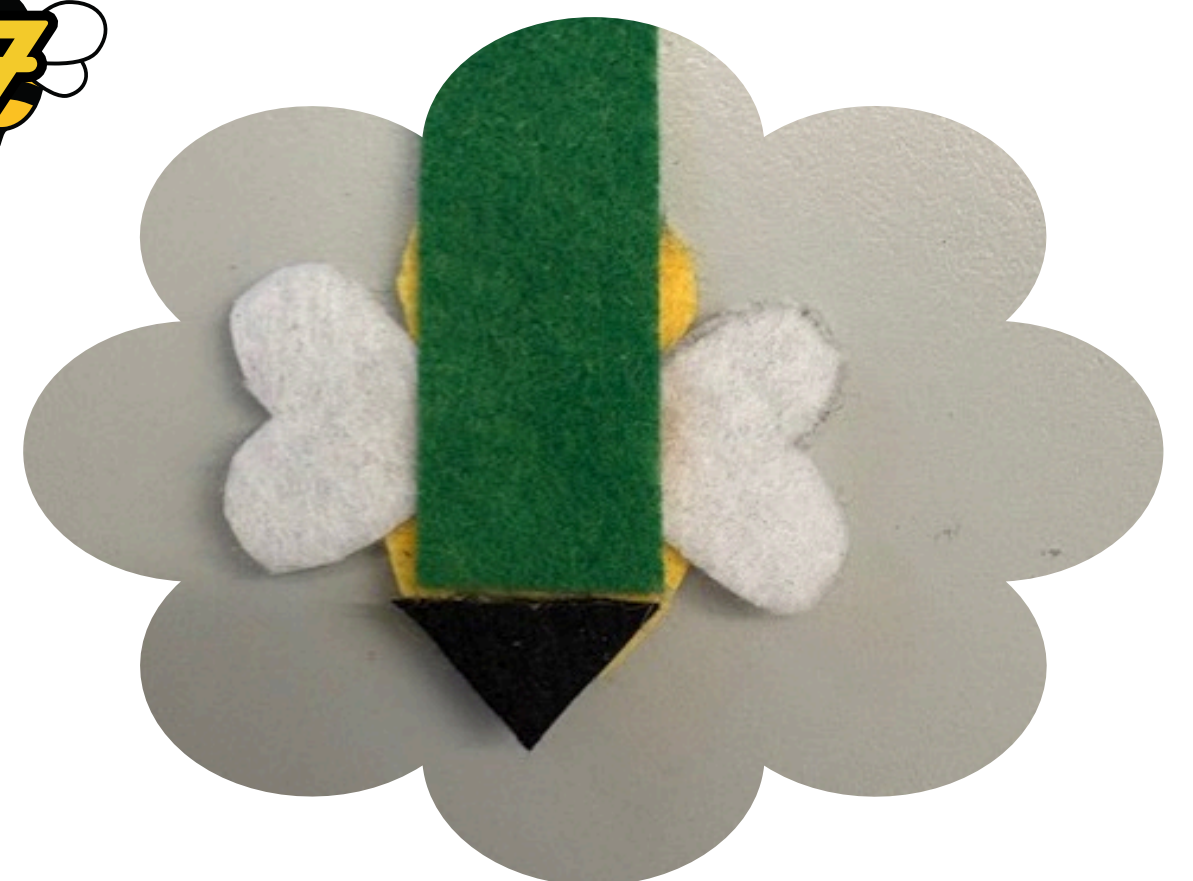

5. Glue the stinger and wings in place on the second body piece.

6. Make the flower and stem by gluing the spot to the center of the flower, and the stem to the back.

7. Glue the opposite end of the stem to the front of the back side of the bee.

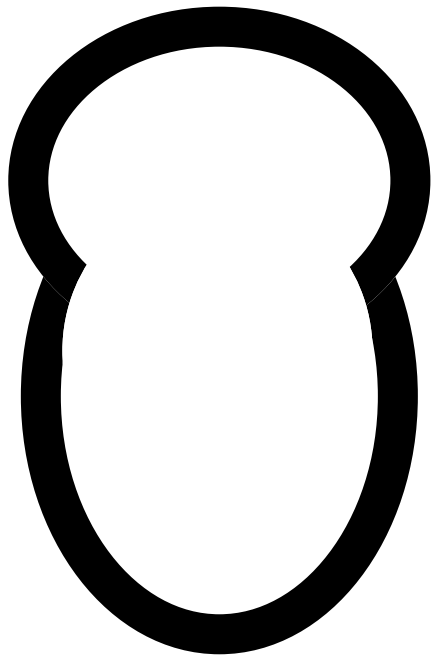

8. Glue the bee's front on, covering the part where the stem is visible on the bee's head.
