

Felt and Yarn Gnome

What you'll need:

- Scissors
- Hot Glue Gun

What's included:

- Yarn
- Felt
- Bead

Instructions:

1. Cut off about six inches of your yarn. Wind the rest around your fingers (about 100 times) to make a ball.
2. Rewind the remaining yarn around your hand if needed. Take the cut length of yarn and tie it around the ball of yarn.
3. Cut the loops on each side of the ball of yarn. Then go around and trim the lengths into a pompom shape.
4. With the felt piece, cut a curved edge from two corners to make the hat shape.
5. Take the top of the felt and apply a small amount of glue to the edge, fold over to make a point.
6. Once the glue holds, apply glue along the rest of the edge to connect the rest of the felt. Cut to make the bottom even.
7. Fold the bottom of the felt up to make a ridge and apply a generous amount of glue around the inside. Attach to the yarn pompom.
8. Apply some glue on the bead and attach to a space between the felt and yarn.
9. When glue is dry fold down the folded piece of the felt.
