

Craft-To-Go

Pom-Pom Penguins!

What's Included:

- Black and white chunky yarn
- 2 small pieces of felt
- 2 googly eyes

What You'll Need:

- Hot glue gun
- Scissors

Instructions:

To create the body pom-pom:

1. Cut a piece of white yarn about 8 inches long. Then slide it between your fingers.
2. Wrap the yarn around 4 fingers - wrap the white yarn first about 30 times. Then wrap the black yarn right next to it about 40 times.
3. Take the yarn you slid between your fingers initially & wrap it around the middle of the yarn as shown- tie it as best as you can.
Don't knot it yet, just tie it tight enough to keep the wrapped yarn together when you slide it off your fingers.
4. Slowly slide the wrapped yarn off your fingers and then tie the knot as tightly as you can.
5. Use very sharp scissors, and carefully slide them into the outside loops of the yarn ball as shown, cutting your way around the circle.

Craft-To-Go

Pom-Pom Penguins!

Instructions:

7. To make the head pom-pom, repeat the steps above with the following 2 changes:
 - a. Only wrap the yarn around 2 fingers.
 - b. Wrap the white yarn 25 times, and wrap the black yarn 40 times.
8. The pom-poms will look very messy. In order to shape them, trim your way around each of the pom-poms with scissors until you've made even, round balls - as shown.
9. Attach the smaller pom-pom to the larger pom-pom using a generous amount of hot glue from a glue gun as shown.
10. Cut out the shape for a beak and feet with the yellow felt and cut a piece long enough to wrap around the penguin for a scarf with the second piece of felt.
11. Using a hot glue gun, attach the beak & feet to the pom-poms
12. Attach the googly eyes to the smaller pom-pom with the glue gun.
13. Wrap the scarf around the penguin's neck, and add a small dab of glue where the scarf crosses itself to hold it in place.
