

3D Printing Policy

The Muncie Public Library encourages creativity and self-expression through the use of new and emerging technologies, including 3D printers. 3D print requests are a staff-mediated service. Customers will be charged the stated fee for 3D printed items, based on the weight of the item. Customers wishing to have a project printed on the Library's 3D printer must fill out and submit a request form. Library staff will then review the request and upon approval, print the item. Muncie Public Library prohibits printing unsafe objects or objects that could be viewed as threatening or provocative. Additionally, Library equipment may not be used to create materials that are:

- used as weapons
- unsafe, harmful, dangerous, or pose a threat to the well-being of others
- obscene or otherwise inappropriate for the Library environment

The Library is not responsible for failed projects. Muncie Public Library reserves the right to halt, delete, or disallow the creation of items that violate this or other MPL policies.
